REQUESTING THE DEPARTMENT OF HUMAN SERVICES TO REEXAMINE THE BASIC HEALTH PLAN UNDER THE FEDERAL PATIENT PROTECTION AND AFFORDABLE CARE ACT ONCE FEDERAL RULES HAVE BEEN ISSUED AND TO CONSIDER AMENDING THE FEDERAL SECTION 1115 WAIVER GRANTED TO HAWAII TO RAISE THE MEDICAID INCOME ELIGIBILITY CEILING TO PROVIDE THE GREATEST HEALTH CARE COVERAGE TO SERVE THE NEEDS OF HAWAII'S PEOPLE.

1 WHEREAS, in 1994, a statewide Medicaid demonstration named

4 adults with incomes of up to three hundred percent of the
5 federal poverty level were made eligible; and

6
7 WHEREAS, in 1996, the program made several significant
8 changes that restricted enrollment in the QUEST program,
9 implemented an enrollment cap of one hundred twenty-five
10 thousand people, and established a new safety net program as a
11 component of Hawaii QUEST Expanded called QUEST-Net that would
12 serve those who became ineligible for QUEST due to the more
13 stringent eligibility requirements; and

14
15 WHEREAS, in 1998, the State limited the eligibility for
16 QUEST to those with incomes of up to one hundred percent of the
17 federal poverty level, with pregnant women and children assigned
18 a higher limit; and

19
20 WHEREAS, while the QUEST-Net program covered adults with
21 incomes of up to three hundred percent of the federal poverty
22 level, only about two hundred twenty adults were enrolled, and
23 as of February 1, 2008, QUEST-Net became more restrictive by
24 excluding adults with incomes of more than two hundred percent
25 of the federal poverty level; and

26
27 WHEREAS, inflating health care costs have put individuals,
28 especially children, at severe risk of foregoing medical care,
29 and Hawaii needs to plan, execute, and maintain health insurance

1 expansions to increase the availability and affordability of
2 health care; and
3

4 WHEREAS, preliminary information suggests the Basic Health
5 Plan under the federal Patient Protection and Affordable Care
6 Act would provide new federal funding for health insurance
7 coverage for Hawaii families with incomes between one hundred
8 thirty-three percent to two hundred percent of the federal
9 poverty level, a population that includes approximately four
10 thousand five hundred individuals and was covered by the Hawaii
11 Medicaid QUEST-ACE and QUEST-Net until recently; and
12

13 WHEREAS, benefits of the Basic Health Plan may include:
14

- 15 (1) The eligibility for lawfully present non-immigrants
16 who are under the age of sixty-five and are not
17 eligible for Medicaid;
18
- 19 (2) The possibility of restoring benefits to Hawaii
20 families with incomes between one hundred thirty-three
21 percent to two hundred percent of the federal poverty
22 level, with generous federal financial support to the
23 State; and
24
- 25 (3) The eligibility for Compact of Free Association
26 migrants, who are currently not eligible for federal
27 Medicaid funding; now, therefore,
28

39 BE IT FURTHER RESOLVED that certified copies of this
40 Concurrent Resolution be transmitted to the Governor, Director
